THE D13 SINK SYSTEM

A cohesive solution that addresses numerous challenges in effective restroom design, the D13 Sink System creates a synchronicity, bringing together soap, faucet and XLERATORsync® Hand Dryer within each basin. Now, users can wash and dry in-place — avoiding the drips and blowback typically associated with electric hand drying. The dryer spout is designed to provide intuitive operation, polite user experience, and an agnostic aesthetic which complements other high-end fixtures.

ACTIVATION

Automatic Sensor Operated

CERTIFICATIONS
